EDUCATION

University of Michigan | Ann Arbor, MI — August 2025 - May 2029
Bachelors of Science in Information (User Experience track), Art (Art&Design) — GPA: 3.887 / 4.0
Related courses: Data-Oriented Programming, HCI, Wed design, Creative Process Strategy, 2D

Saratoga High School | Saratoga, CA — August 2020 - June 2025
Honors interdisciplinary studies of English, history, and media production arts.
Media Arts Program (MAP) | August 2021 – May 2025

EXPERIENCE

Young Adults Group, Korean Church of Ann Arbor — April 2026 - Present
Young Adults Leader — Social Media & Broadcast

- Lead social media strategy and content creation (Instagram, KakaoTalk) for weekly events, growing engagement through posters, reels, and event graphics designed in Illustrator and Canva.
- Prepare and operate worship slides for Friday service, ensuring smooth transitions during live worship.

MDesign, University of Michigan — August 2025 - Present
Designer

- Collaborate with a 5-person team to design UI/UX deliverables for clients from wireframes to final visual design using Figma and Adobe Illustrator.

Jain Industry Partnership Program, University of Michigan — January 2026 - April 2026
Intern

- Collaborated with industry partners to expand professional network and improved personal skills on UX research and design through mentorship.

MAP Student Leadership, Saratoga High School — August 2024 - May 2025
Graphic Designer

- Devised posters, animations, documentaries, and short films regarding such as American issues, world history, and literatures.

PROJECTS

ASD learning assistant — Sept 2026 - Present

- Designing an accessible web application tailored for neurodivergent university students, focusing on reducing cognitive load by breaking complex assignments into manageable, step-by-step tasks.
- Grounding the design in a personal case study — observing how a sibling with autism processes multi-step homework — to prototype interaction patterns (task chunking, progress cues) that support comprehension over rote completion.

Web Product Design, Muztime — June 2026 - Present

- Spearhead the end-to-end UX/UI design of a music-integrated workout tracking application in Figma and Claude, focusing on seamless user flows and accessible interfaces.

Children's Book Illustration — May 2026 - Present

- Partnering with a co-creator as an illustrator to conceptualize, visualize, and layout a specialized children's book designed to support and comfort siblings of NICU babies.
- Establish a cohesive visual system, style guide, and emotional color palette across multiple pages, ensuring text and artwork flow seamlessly to optimize readability for young audiences.

SKILLS

Design & UX: Figma, Web Designing, Adobe Illustrator, Photoshop, Graphic Design; Coding: Basic HTML & CSS, Vibe coding; Fine Arts: Acrylic Painting, Calligraphy, Drawing, Animation; Languages: Korean
